

presents Magnesium Taurate

DESCRIPTION

In 2017, Novotech Nutraceuticals is introducing an exciting new product: Magnesium Taurate (8% Mg). Magnesium Taurate is a fully chelated product and is the newest product to be added to Novotech's line of high quality Chelated Magnesium products.

Magnesium Taurate

Magnesium, an essential mineral for humans, and taurine, an amino acid with numerous benefits, make up Magnesium Taurate. This combination of two compounds interacts to provide a variety of potential benefits including enhancing cognitive function and protecting against cardiovascular disease, migraines, and depression.

BENEFITS

- Soluble and easy to use in applications including sports nutrition, dietary supplements, beverages, and other mixtures.
- Research has shown that Taurine has been able to reduce the risk of heart attacks, balance electrolyte levels, and promote healthy immune function.
- In clinical settings, magnesium taurate has demonstrated the ability to treat cases of depression, vascular health, and the prevention of neurodegenerative disorders and migraines.
- Taurine, a nootropic compound, is considered to be capable of improving overall cognitive function and memory.

Specifications

Limit of Mineral Content (Magnesium)		6.7 – 9.0%
Physical and Chemical Characteristics	Appearance	Fine Powder
	Color	White To Light Pink
	Density	0.65-1.05 g/cc
	pH	7 – 10
	Loss on Drying at 105°C	Not more than 8%
	Solubility	Soluble

Disclaimer: These statements have not been evaluated by the Food & Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease. Chelated minerals and other powder products are not to be ingested directly.

About Novotech

Since inception, Novotech Nutraceuticals, Inc. has been continuously building a reputation as a high quality US manufacturer (“Made in California” member) for the pharmaceutical, nutrition, food, and other dietary industries. Our values and R&D capabilities combined with high quality production have made Novotech a respected supplier distinguished from its competition. We are determined to provide the best products and service to our clients. As a manufacturer of over 85 types of chelated minerals as well as a number of innovative products including multiple forms of patented omega-3 powder and chelated non-acidic Vitamin C, Novotech strives to exceed expectations.

COMMITMENT TO QUALITY

At Novotech, the manufacturing process adheres to GMP guidelines and is highly controlled from start to finish to consistently ensure quality. All products are tested by our in-house control laboratory as well as independent laboratories to ensure that they meet FCC and USP specifications and standards. All goods shipped include Novotech’s COA (Certificate of Analysis) and MSDS (Materials Safety Data Sheet). With our commitment to quality, we are always flexible in meeting our customers’ needs.

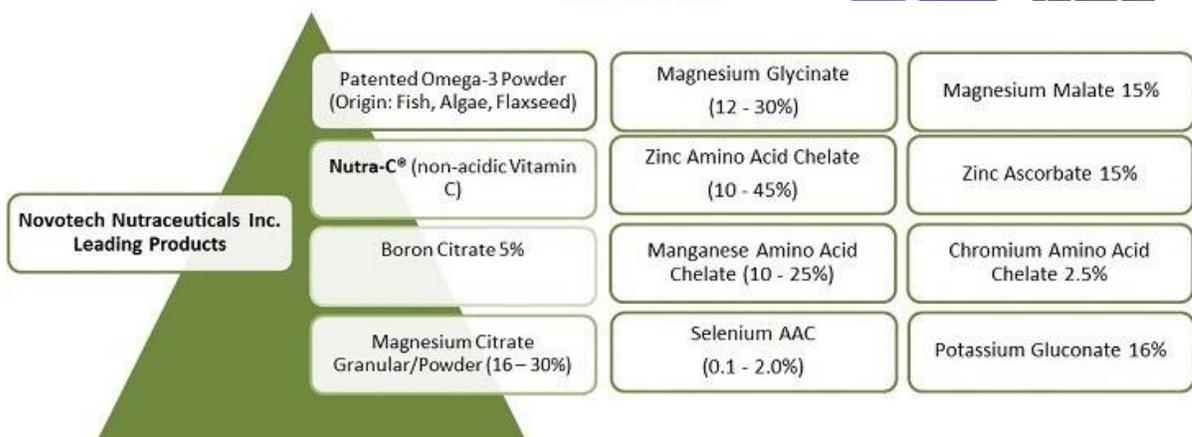

MISSION

Novotech’s mission is to improve human health and quality of life through providing quality functional nutrition products to its clients. To achieve this, we follow these principles in everything we do:

- Dedication and duty to clients
- Focus on R&D and innovation
- Maintain professional and knowledgeable staff
- Emphasis on integrity, responsibility, and trust
- Prioritize safety, health, and quality

INNOVATION

Novotech is focused on innovation not only through developing new products, but also through working with its clients. We welcome private-label needs for any pre-mix and custom formulations. With an active R&D department and experienced manufacturing personnel, we are able to partner with our customers to develop customized products and solutions.
