

NovoOmega® Omega-3 Powder

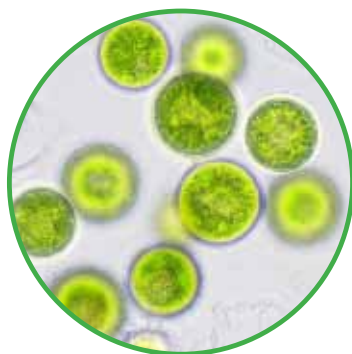

NovoOmega® Omega-3 powders are manufactured using Novotech's breakthrough proprietary (U.S. patented) technology. Not only does Novotech's technology produce higher Omega-3 contents, but it also improves the oxidation stability. NovoOmega® Omega-3 powder does not need to be refrigerated and is made from 100% fish oil or 100% plant oil.

NovoOmega® Omega-3 Product Line	Origin	Total Omega-3 (%)	EPA (%)	DHA (%)	ALA (%)
Omega-3 A32 Powder	Algae Origin	32%	--	NLT 32%	--
Omega-3 A10 Powder (Dispersible)	Algae Origin	10% ± 1%	--	10% ± 1%	--
Omega-3 F30 Powder	Fish Origin	30% ± 1%	18% ± 1%	12% ± 1%	--
Omega-3 P50 Powder	Flaxseed Origin	50% ~ 53%	1 %	1 %	49% ± 2%

Features:

- Non-microencapsulated powder; double the DHA and EPA contents
- Triglyceride (TG) form with natural non-GMO powders
- High purity and concentrations of Omega-3 powders made from 100% fish oil or 100% plant oil including algae or flaxseed
- Carbohydrate and protein free
- High bioavailability; Gentle on stomach
- No refrigeration needed with 24 months of shelf life
- Stable and minimal odor and taste; off white to yellow fine powder
- Packed in 2.5kg mylar bag and 12.5kg in one white kraft carton box.

NovoOmega® Omega-3 Powder Fact

Applications:

- Easy applications for tablets, capsules, milk additives, meal replacement powders, protein powders, Weight management powders, sport drinks, , or confectionaries

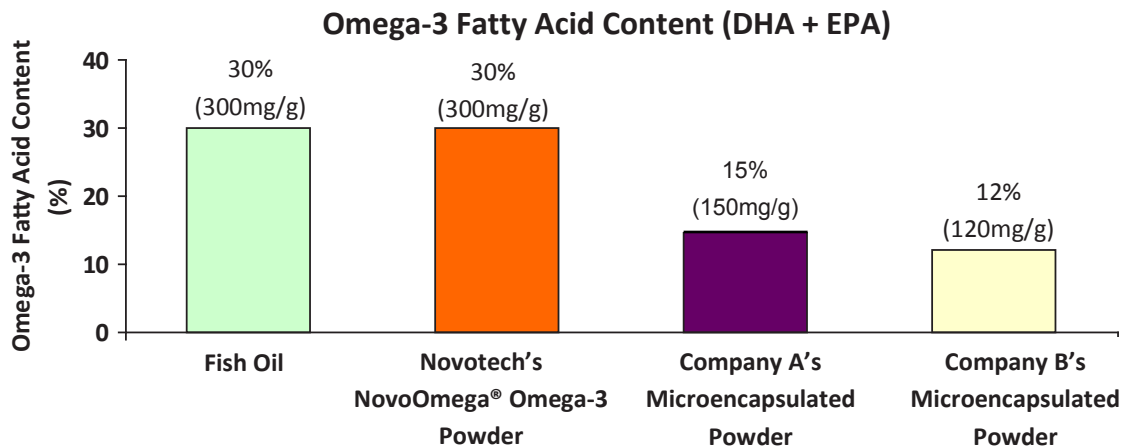

High Purity- Increase Applicability of DHA and EPA

How can you be sure you are obtaining the highest purity Omega-3 powder? **NovoOmega®** powder is manufactured with purity in mind from raw material sourcing of natural fish oil or plan oil to manufacturing and testing. The meticulously defined proprietary process results in fine powder with high bioavailability without carbohydrates and proteins. It increases the applicability of EPA and DHA in foods and dietary supplements.

High DHA and EPA

NovoOmega® F-30 Omega-3 Powder is made from 100% fish oil using Novotech's patented technology. Novotech's GRAS Omega-3 powder converts the same amount of DHA and EPA from fish oil to powder, which is double the amount compared to the microencapsulated method.
