"Omega-3 for healthier living®"  
Specialize in Mineral and Omega-3 Nutrition

March 27, 2024

Dear Customers,

**Subject: Packaging Update for Our NovoOmega®- Omega-3 Powders**

We hope this letter finds you in good health. We appreciate your continued trust in our products and are committed to delivering the highest quality products to support your operation.

We are excited to announce an enhancement to our packaging for NovoOmega® Omega-3 Powders. Starting from March 2024, we will be transitioning from mylar bags to vacuum foil barrier bags with an inner transparent vacuum bag. This change has been carefully reviewed with deliberation to better safeguard the freshness and prevent potential oxidation of our Omega-3 powders during storage and transit.

**Key Points/Advantages:**

1. Improved Quality of Bags
  - The inner PE bag is a food grade especially designed to be vacuum sealed, and the outer vacuum foil barrier bag is a much stronger and high-quality bag which provides layers of protection against external factors such as light, moisture and oxygen.
2. Enhanced Assurance of Product Quality
  - During packaging, the NovoOmega® Omega-3 powder will be first vacuum sealed in a 2.5kg transparent food grade PE bag, (please note that, although the powder may become lumpy when sealed, it can be readily crumbled to restore its smooth, powder texture), after vacuuming, the bag is then placed into another vacuum foil barrier bag to ensure freshness and prevent from any potential oxidation.
3. Sustainability:
  - To respond to ESG requirements, vacuum foil barrier bags are much more environmentally friendly than mylar bags. They are recyclable and contribute to our commitment to sustainability.

Should you have any questions, our customer support team are available to assist you. Thank you for choosing our patented NovoOmega® Omega-3 powders. We look forward to continuing to serve you with excellence.

*Note: Attached please find a new packaging information sheet.*

Best regards,  
Novotech Nutraceuticals, Inc.

## OMEGA-3 A-32 DHA POWDER

Outer Packaging: Craft box, dimension 18 inches x 13 ¾ inches x 9 ¾ inches.

Photo Front and Back:
